SUMMARY

Dedicated and ambitious, I'm a Fullstack Web Developer with 3+ years of experience who loves solving problems using technology, particularly within teams where collaboration can improve my skills.

Got promoted from Junior to Mid-Level developer in the first six months of company work. I was also responsible for the infrastructure of a couple of projects.

My long-term goal is to transition into a DevOps engineer position.

Continuous learning and improvement are my motto.

EXPERIENCE

Full Stack Web Developer
Vizo (https://vizo.dev/)
March 2022 – October 2023

- Fashioned complex web applications with big code bases and dozens of pages and systems.
- Improved project infrastructures by enforcing coding rules and implementing automation steps CI/CD.
- Got promoted from Junior to Mid-Levvel developer in the first 6 months.
- Learned about leadership and teamwork.

Software Developer
Disbots
January 2021 – March 2022

- Assembled backend systems to handle Discord™ bots.
- Integrated new and existing backend systems into web apps.
- Created landing pages and control panels for Crypto startups.
- Learned how to manage tasks of multiple projects at the same time.

Web Developer
Freelancer
February 2012 – November 2012

- Built fast and static landing pages for local businesses.
- Improved reliability for the businesses' contact information, promotional deals, and accessibility.
- Learned how to handle clients directly and manage my time to meet deadlines.
